Specimens and samples submitted to the CVMDL for investigation* become the property of the CVMDL. Samples and specimens may be tested as part of State/ Federal surveillance programs. Test results may be shared with relevant Local, State, or Federal agencies as required by law. Anonymized samples, specimens, and test results may be used in the teaching of students, in professional publications, or in the development of new assays. *Excludes tissues or clinical samples submitted by PIs as part of their research, or submissions of federally regulated species. Return of samples associated with federally regulated species or institutional collections will be arranged on a case by case basis.
